

JANICE BUSOVNE

Your Real Estate Connection

Third Edition

April 2018

30th Issue

A recent study by a national fishing organization revealed that there was a correlation between waterfront property and real estate signage. The commissioned study showed that glare from real estate signs placed near water caused fish to exponentially multiply. In an effort to be pro-active and eco-friendly, Realtor Janice Busovne just announced her partnership with the organization and a decidedly concerted effort to find and use non-glare signs. Busovne is the only area Realtor to have stepped up to this unique challenge. If you would like more information about this effort, please contact 1-800-APRIL FOOL!!
